

Emergency Floor Units

AMU (Acute Medical Unit) – 32 bedded medical assessment unit

ACB (Acute Care Bay) – 10 bedded unit within AMU for level 2 patients

Ward 7 - 28 bedded medical Assessment unit

AMU South – 16 bedded medical unit

GPAU (GP Assessment Unit) Same day medical patients will be admitted here for care aiming for same day discharge

EDU (Emergency Decisions Unit) takes a wide variety of patients on various pathways. This includes post trauma, anaphylaxis, asthma, mental health, head injury & NSTEMI rule out

AFU (Acute Frailty Unit) – 16 bedded assessment unit designed for our frail/elderly patients and is overseen by our specialist multidisciplinary frailty team.

Discharge Lounge – We take all planned discharges here from all specialities

- ★ A purpose-built child-friendly department including specific rooms for vulnerable children and a multi-sensory room creating a calming and relaxing environment
- ★ Weekly multidisciplinary simulation
- ★ Dedicated play team to support with procedures and care
- ★ Monthly departmental meetings and Critically Careful forum where we discuss complex cases & examples of excellence
- ★ Work with doctors from a range of specialities including Paediatricians, Paediatric Surgeons, Orthopaedic, Maxillofacial, Plastics and GP's
- ★ We have a co-located short stay unit that is managed by the ED staff allowing for continuity of care for patients
- ★ Paediatric ED consultant staff which includes academic & international experts in research. You will be part of improving care for children in research trials
- ★ Work alongside specialist Paediatric Advanced Nurse Practitioners (PANP) & Emergency Nurse Practitioners (ENP) – many of whom have been with us since junior nursing level
- ★ Training to develop extended skills used within ED with a dedicated Children's ED educator to support your development

University Hospitals of Leicester NHS Trust
Compassionate care

Adult & Children's Emergency Department

Our modern **£48 million Emergency Department** was opened in April 2017 and incorporates a combined **Acute & Emergency Floor**, along with an expanded **Paediatric Emergency Department** to meet the rising demands of Emergency and Urgent care across Leicestershire

Join our team. Grow your skills. Be supported.

Areas in Emergency Department

ER (Emergency Room/Resus) – 12 individually enclosed cubicles where our most unwell patients will go

Red Majors – 32 state-of-the-art cubicles for all acutely unwell patients

Blue Majors – 16 cubicles for acutely unwell patients

Ambulatory – area for our 'fit-to-sit' patients

Injuries – our bespoke minor injuries area for everyday cuts and bone breaks

Ambulance Assessment – 10 bedded area for patients arriving by ambulance

Walk in Assessment/Triage – our triage area for walk in patients

Paediatric ED – see overleaf for more information on our Children's ED!
